

NEW DATA RESOURCES

Las Vegas, Nevada

Great Plains Dynamics Accounting

So, you're looking for a qualified small Dynamics GP consultant? And need some accounting help and training, too? Well, New Data Resources is your solution! We are Great Plains experts, and are here to make running your business easier.

We know that you need to get your problems solved so that you can get on with your work. New Data Resources will solve your problems faster than anyone else. Try us out now and decide for yourself.

Our GP consultants are pros. They will make suggestions for improvements to run your business better. As Microsoft Great Plains Certified Masters with over 20 years of combined Great Plains, accounting, operations, and IT systems experience; we provide implementation, upgrades, training, and support services to a wide range of industries.

We can help you right now!

You can call or email now to get your questions answered immediately. Whether you're looking for one-time support or a long-term support contract, we're here and ready to help no matter what version of GP you are using. If you need consulting help with your system, including report writing, training, upgrades, integration, or anything else, all of our services are provided for a flat hourly rate.

Affordable rates and options you choose

We offer a flat rate for all support incidents or you can choose to sign up for our affordably priced support plan. We strive to provide the fastest response times in the industry and we can quickly and easily resolve your issues and answer your questions without an endless trail of emails and phone calls.

Looking for an implementation team?

We provide flat-fee implementations that get your business and system up and running for one guaranteed fee.
